Eleven Online Sessions: September 8, 2020 until November 17, 2020**

Space is limited ~ Apply Now!!

This course is approved for 16.5 CE hours with NAB/NCERS

From the convenience of your computer, this online learning option offers practical tools, resources, and inspiration to create change agents within the organization.

Over eleven weeks, you will explore, practice, and apply what you have learned. The sessions offer opportunities to share experiences, ask experts challenging questions, and gain additional skills and knowledge to take back.

Participants will learn together as a team with shared resources and growth work to deepen your understanding of the Principles between sessions.

The Eden Associate Training is Life Changing! It is an opportunity not to miss!

The Eden Associate Certification conveys the WHAT, WHY, and HOW of person-centered/person-directed care, which is a key focus throughout today's best practices and the new standard of care that is required to initiate and maintain effective person-centered/person-directed care and culture change over time. This is the heart and soul of person-centered care planning.

This interactive experience features practical tools, resources, strategies, and inspiration that empower individuals and interdisciplinary teams as required by CMS (The Centers for Medicare & Medicaid Services).

Who is eligible to attend?

We recommend teams of 4-8 staff from the same nursing center apply together. We suggest teams include at least one person from senior management, one-two department supervisors and the remainder direct care and other support staff. If possible, include other stakeholders such as a resident, family member or even your local ombudsman to participate with your team.

Think interdisciplinary team building!

This is for *anyone* interested in learning about person-directed care, including: Long-Term Care Ombudsmen, State Surveyors, Policymakers, as well as Residents, Family/Friend Care Partners.

Scholarships are Available NOW! APPLY TODAY.

\$500 Scholarships are available for Georgia Nursing Home staff and related stakeholders. This scholarship covers the full registration for the certification. We are awarding a limited number of scholarships, so apply today!

Don't miss this life-changing opportunity.

Your Certified Eden Educators will be Kim McRae & Walter Coffey

Eliminate loneliness, helplessness, and boredom...

Now, more than ever, we need solutions that renew, energize, and empower care partner teams to create a new reality... a culture of care that promotes purpose, growth, and meaningful engagement.

Changing lives for over twenty years, **The Eden Alternative**[®] brings you this insightful, practical, and impactful journey into the world of person-directed care. Through a proven, flexible framework, participants gain strategies to drive meaningful and lasting change in their organizations and communities, even under the most challenging circumstances.

Participants of Certified Eden Associate Training Online will...

- Understand the WHAT, WHY, and HOW of person-directed care
- Learn how person-directed care transforms quality of life and care
- Stand ready to meet new regulatory expectations for care
- Help reframe perceptions of aging and changing abilities
- Increase satisfaction for Elders, family members, and employees
- Gain powerful team-building skills that strengthen care partnerships
- Drive more impactful outcomes, more efficiently
- Help reduce staff turnover and improve financial performance
- Create high engagement among Elders, family members, and employees
- Engage with other participants who share their goals and aspirations
- Be prepared to support the voices and choices of the people they serve

NOTE: If you are NOT a Nursing Home Staff Member/Stakeholder, you can still participate in the certification with the CCNG discounted registration fee of \$500.

You must be in Georgia and use the following registration code: CCNG
